Finishing

Quality Control and Dispatching

Quality Control in Process

Our **Quality Control** ensure to inspect size, shape, color, clarity, alignment, binding, and finishing to verify conformity and compliance with quality standards and specifications. Additionally, our post-printing inspection can help identify and correct any defects or errors that may have occurred during the printing process. Also, our quality control plays an active role in reducing the risks came up from the production process. Quality control aims to make there are no items that do not match with the quality standards desired by the customer, so that the production process does not produce defective products continuously.

Dispatching

ADELKO Printing Press ensure prompt deliveries with its own fleet of delivery vehicles and logistics partners. We believe it's never enough to just design and print a client's requirements without paying attention to every small detail. Our job is only finished once our product has been delivered to the complete satisfaction of the client and on time delivery with correct quantity and good quality as quickly as possible.
